## Continuous Progression in Investment Management

The Nippon Technical Analysts Association (NTAA) is delighted to be hosting the 2015 International Federation of Technical Analysts' conference in Tokyo.

The theme of the Conference, "Continuous Progression in Investment Management," will serve as the framework for the program. The creation of the world's first futures market in Japan, the Osaka Dojima Rice Futures Exchange, gave birth to the concept of technical analysis in the 18th century. Since those pioneering days, analytical methods have never remained static. Technical analysis has markedly progressed from its humble origins – and will continue to do so -- being infused with new ideas and techniques being developed continuously. These new ideas, combined with continual improvements to existing techniques, are what make technical analysis such a fascinating topic. Recently, modern technical analysis has been rapidly gaining ground and is significantly reshaping the landscape of the technical analysis community in Japan.

While Japan was the birthplace of a number of traditional technical analysis techniques (such as Candlestick charting, Ichimoku Cloud charting, Kagi-ashi, Renko-ashi, etc.), it has now one of the world's highest concentrations of modern technical analysis practitioners and researchers. These new breed of technical analysis practitioners include traders deploying ultra-modern algorithmic trading platforms, and researchers developing world-leading sophisticated quantitative trading systems and investment models.

That stated, some of the most intrinsic elements of market rules have not changed, nor will likely change. The Conference will be programmed in such a way to give the delegates a clear perspective of how technical analysis has progressed and where it is heading in the next decade and the next century.

## 'Omotenashi' Conference for All Investment Professionals and Academics

The sub-theme "'Omotenashi' in Technical Analysis" will bestow the conference with a local flavor. 'Omotenashi' is a Japanese word which means "Selfless, harmonious hospitality." We have decided on this sub-theme for the following reasons:

- NTAA is determined to make the utmost effort to ensure that the attending delegates will be thoroughly satisfied, fully benefiting from the intensely condensed conference program in a highly cordial environment.
- The 'Omotenashi' spirit has a lot to do with 'simplicity', the core of the Japanese culture and spirit, which forms the base for, just to name a few, *Sado* (tea ceremony), *Zen*, *Bushido* (Samurai spirit), *Bonsai* (miniaturized trees grown in containers), *Ikebana* (Japanese flower arrangement), and many other unique Japanese cultural arts and customs, and we would like the delegates to enjoy the unique local cultural flavor.
- 'Omotenashi' masters are skilled in foresight with the ability to "anticipate" the feelings of their guests and take action to ensure harmony (well before ordinary people notice), operating in the same way as market masters who know how to correctly "anticipate" future market developments and take action accordingly (well before ordinary market players start reacting to widely known facts).
- Mastery of the 'Omotenashi' spirit helps improve one's trading skills by allowing one to focus on the "essential" rather than minor peripheral detail.

We have deliberately widened the scope of this conference to appeal to the broad financial community as well as the academic community, and not just technical analysts. We will be using our extensive relationships with other financial and educational organizations here and abroad to market the conference globally and are looking to attract delegates from all over the world.

The level of Conference presentations will be geared to professionally employed Fund Managers, Traders, Analysts, Asset Allocators, Private Bankers, Financial Planners, and also highly experienced private financial market traders/investors, as well as researchers and educators at leading academic institutions.

The Conference will be held at the Keio Plaza Hotel, a luxurious hotel located in the Shinjuku district of Tokyo, the business/commercial district which has the highest concentration of skyscrapers in the city.

We look forward to seeing you in Tokyo in October!

## Getting There

There are two Airports near the Tokyo area, Haneda Airport and Narita International Airport.

### [ Haneda Airport ]

**Limousine bus** : If you arrive at Haneda Airport, the easiest way to get to the hotel would be the limousine bus. The limousine bus can take you directly to the Keio Plaza Hotel for a nominal fee of around 1,230 yen (10 USD) .

### [ Narita International Airport ]

If you plan on arriving at Narita International Airport, there are two options to get to the hotel :

**Limousine bus** : The limousine bus can take you directly to the Keio Plaza Hotel for a nominal fee of around 3,100 yen (26 USD). (It may be recommended to take the limousine bus back to the airport upon return as there prices will be the same and it will be more convenient. )

**Train** : Some of the Narita Express (NEX) trains travel directly from Narita Airport to Shinjuku Train station. It costs 3,190 yen (27 USD).

## General Information

### Visas

As there are different rules and regulations concerning the various countries, it is recommended to read the Japan National Tourism Organization website. The websites URL is: <http://www.jnto.go.jp/eng/arrange/essential/visa.html>

### Language

Japanese is the language of the land. However, everyone knows English to some degree or another. Shinjuku is the heart of English establishments in Tokyo.

### Currency & Changing money

Japanese Yen (JPY). US\$ 1.00USD = JPY 123.5 (June 26, 2015). Most major currencies can be easily changed into Japanese yen (e.g. currency exchange at the airports or in the hotel lobby).

### Credit card acceptance

Widely accepted in airports, stations, major shops and establishments, as well as at most convenience stores (55,000).

### Safety and Security

Public safety is very high. Tokyo was recently named by the Economist Intelligence Unit as the safest city in the world.

### Local friendliness, Taxi services, Cleanliness, Public Transportation, etc.

Tokyo topped Trip Advisor's list of the most satisfying cities to visit. In 13 of 16 categories, Tokyo finished in the top 10. It topped five of the categories including: (i) Local friendliness, (ii) Taxi services, (iii) Cleanliness, (iv) Public Transportation, and (v) Overall satisfaction.

### Weather

Autumn weather in Japan is very mild, with a cool breeze and the colors of the trees are changing. It is a very lovely time of the year. Recommended apparel is slacks, a light Jacket or other kinds of similar clothing. Temperature usually hover around 15°C to 23°C (59°F to 73°F) with a humidity of 60%..

### Price Levels and Cost of Living / Staying

It may come as a surprise that the cost of living / staying in Tokyo (and Japan) is very reasonable. Basic necessities such as food, clothing, haircuts, are much less expensive than most other major cities. For example, most bug lunch sets in Japan will run in the neighborhood of 1,000 yen (8.4 USD). A similar portion of food in America or Europe would be at least 10-15 USD. Please examine the link below for a detailed comparison of prices. Overall, one will definitely not spend anything more than if you were in America or Europe.

[http://www.numbeo.com/cost-of-living/compare\\_countries\\_result.jsp?country1=Japan&country2=United+States&displayCurrency=USD](http://www.numbeo.com/cost-of-living/compare_countries_result.jsp?country1=Japan&country2=United+States&displayCurrency=USD)

### Tipping

Japan is in general a tip-free country (at restaurants, cabs, luggage handlers, nowhere do you top).

### Tourist Activities

Tokyo is truly a city of unlimited possibilities. It may not be an exaggeration to say that everything that exists in one's imagination exists somewhere in Tokyo. While the professional Guest Relations staff of the conference venue hotel will be happy to provide you with useful sight-seeing and shopping information as well as assistance you may need, it is recommended to buy a travel guide if you are interested in exploring the various sights and sounds of Tokyo (and of Japan). Suggested guides include the following. These can be purchased at most large book stores or Amazon..

- \* The Rough Guide to Tokyo (ISBN-10:1409343111) / The Rough Guide to Japan (ISBN-10:1409342832)
- \* Lonely Planet Tokyo (ISBN-10:9781742200408) / Lonely Planet Japan (ISBN-10:1742204147)
- \* Fodor's Tokyo (ISBN-10:0804141703) / Fodor's Japan (ISBN-10:0804141851)

## JAPAN / TOKYO

According to a recent BBC poll, Japan has ranked highest for its positive influence in the world. The effect that the Japanese culture has had on the rest of the world should not be understated. The culture and products of Japan look to have an increasingly large and lasting impact on all countries. Japan overflows with unique tenets, and these at first glance may look simple, but the more one looks, the layers upon layers of complexity come to light. The center of all of this richness and beauty is Tokyo; the heart of Japan. The IFTA and the NTAA, in partnership with all of our sponsors and members, on behalf of everyone in Japan, cordially welcome you!

### JAPAN

Japan is becoming one of the most popular tourist destinations in Asia. Tourist arrivals in Japan doubled in the last 10 years and tripled in the last 20 years, and the growth momentum has continued to accelerate recently. The number of foreign visitors increased 35% in 2012, 24% in 2013, and 30% in 2014, and is widely projected to further double or triple by around 2020 (when Tokyo will host the summer Olympic games). The ever-increasing numbers of global tourists discover (or rediscover) the numerous tourist attractions of this country. Japan has such a long history and unique culture, where our people treat its visitors with the great 'Omotenashi' spirit. Japan welcomes you!

### TOKYO

- Vibrant: gearing up to host the 2020 Olympics
- Trend setting city: constant flow of new cultural products (with *Manga, Anime*, leading the way)
- Fascinating combination of both modern and traditional: While being home to some of the world's most ambitious architecture, stylish shops and globally renowned restaurants, numerous serene temples, shrines, Imperial gardens provide a serene oasis within the ever electric city
- Tasty: Undisputed world's culinary capital, with the Michelin Guide handing out a total of 281 stars to restaurants in Tokyo, more than twice the number given to restaurants in Paris and New York combined, in 2013
- Inexpensive: Contrary to the commonly-held misconception, things are surprisingly affordable
- The world's safest major city allowing visitors to walk, take the subway or taxi without concerns

### What is NTAA?

The Nippon Technical Analysts Association (NTAA), founded in 1978, is the Japanese association for technical analysis practitioners and researchers. Its main aim is to promote greater use and correct understanding of technical analysis as a vital investment tool. It is one of the largest technical analysis organizations in the world with over 2300 members. Current members include fund managers and analysts at asset management companies, institutional traders, research analysts at securities firms and independent research houses, bankers, stock brokers, hedge fund marketers, financial advisors, market newsletter writers, individual investors and traders, as well as growing numbers of academics. The NTAA is a founding member of, and the Japanese representative for, the International Federation of Technical Analysts.

### IFTA Conferences

The inaugural annual IFTA conference was held in Tokyo, Japan, hosted by NTAA, in 1988. Since then, IFTA has continuously held an Annual Conference in different locations throughout the World, normally in the autumn. These conferences are organized by the member society of the host country. Following the 1988 conference, the NTAA also hosted the IFTA 2001 conference in Tokyo and is delighted to once again host IFTA 2015.
