NTAA 会員へのメッセージ ※

2012 年 IFTA シンガポール大会に向けて

Message from Mr. Sudarshan Sukhani
(President of the Association of Technical Analysts, India)

Greetings to my fellow traders in Japan,

My name is Sudarshan Sukhani. I live in India. I will be a speaker at the IFTA Singapore conference to be held on Oct 11 - Oct 13, 2012.

I was fortunate to visit Japan, twice, many years ago, which included a visit to the Ryoanji Temple in Kyoto. Later, when I started in full time trading, the philosophy of the rock garden became an important influence in my career as a short term trader.

How? Well, I have never really understood what the rocks mean in the garden. I know that I do not know, but I get a spiritual experience whenever I think of the garden.

I am a short term trader taking many trades every day. Before taking every single trade, I am filled with uncertainty. I never know if the trade is going to work out. All I know is that I do not know. But, I follow my systems because that is the only way I can trade without knowing.

Since the year 1999, I have been giving my analysis on the TV channel CNBC-TV18. In recent years I give a daily commentary on trading Index futures. Viewers like what I say. That may be because I accept my incomplete knowledge of the markets.

I will be discussing short term trading methods in my presentation at Singapore IFTA. The purpose of speaking is to share my thoughts in trading. Traders develop their own inner self by experience as well as by sharing the experience of others. Singapore offers me the chance to listen to some of the best traders in the world, and, I hope I will improve as an analyst-trader.

Dear Friends, Singapore is a wonderful city, within easy approach from Japan. I hope you take advantage of this location and attend the IFTA meeting. If you do come, please look me up. I will be thrilled to meet you.

Sudarshan Sukhani
President of the Association of Technical Analysts (India)
