These speakers rarely appear together. **IFTA 2026 is your chance to learn directly from the people shaping the future of the discipline.**

Markets are changing — fast.

This conference tackles the questions that matter most:

- How will AI reshape technical analysis?
- Which indicators remain robust in modern markets?
- How do you build resilient trading systems in volatile environments?
- What new patterns and structures are emerging?
- How can traders avoid false signals in increasingly noisy data?

Expect practical, evidence-based insights you can apply immediately.

Connect with a global community.

IFTA brings together professionals from more than 30 countries, including:

- Fund managers
- Institutional and private traders
- Quantitative researchers
- Market strategists
- Portfolio managers
- Financial educators
- Fintech innovators

This is one of the most valuable networking opportunities in the TA world.
